

Pairing Student LMS Accounts with ALEKS

Students can use their Learning Management System (LMS) account to access either their existing ALEKS account or a new ALEKS account purchased online. This enables Single Sign On (SSO) so that they can link from their LMS to ALEKS without having to remember separate login names and passwords.

How a Student can Pair his Account

Below is an example of how a student can pair his LMS account with ALEKS.

First, the student logs into his LMS account. The student will look for a list of his classes and then, click on the name of the class he wishes to access. Next, the student will look for a link to launch ALEKS from his LMS.

After launching ALEKS, the student arrives at the page below and will be asked to make a selection from the following two options:

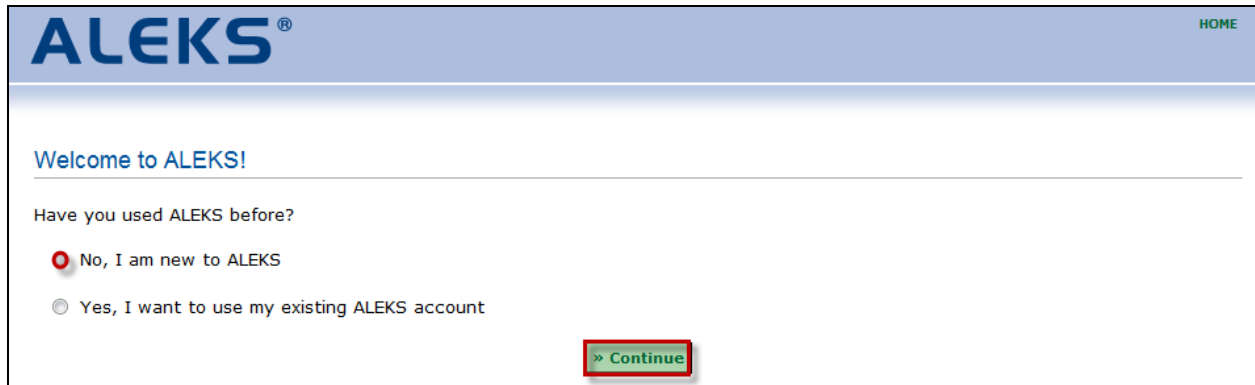

- **No, I am new to ALEKS.** Selecting this option will take the student through the new user registration flow.
- **Yes, I want to use my existing ALEKS account.** Selecting this option will allow the student to enter his existing ALEKS account.

The screenshot shows the ALEKS interface. At the top left is the ALEKS logo, and at the top right is a 'HOME' link. Below the header is a 'Welcome to ALEKS!' message. The main content area asks 'Have you used ALEKS before?' and provides two radio button options: 'No, I am new to ALEKS' and 'Yes, I want to use my existing ALEKS account'. A green 'Continue' button is positioned below the options. At the bottom of the page, there is a copyright notice: 'Copyright © 2012 UC Regents and ALEKS Corporation. ALEKS® is a registered trademark of ALEKS Corporation. User Agreement - Privacy Statement Updated: 7/7/10'.

NOTE: The page above will only appear the first time students arrive from their LMS account to pair with their ALEKS account. Once the account has been paired, students bypass this step.

First Option: “No, I am new to ALEKS” Workflow

The student selects the option “No, I am new to ALEKS” and clicks on the “>> Continue” button.

ALEKS® HOME

Welcome to ALEKS!

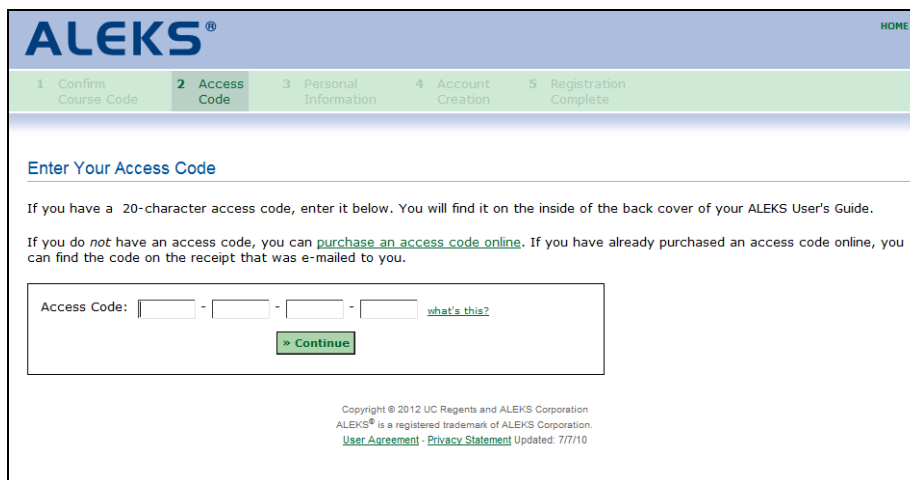

Have you used ALEKS before?

No, I am new to ALEKS

Yes, I want to use my existing ALEKS account

[>> Continue](#)

If applicable, the student enters a 20-character access code or clicks on the “purchase an access code online” link.

ALEKS® HOME

1 Confirm Course Code 2 Access Code 3 Personal Information 4 Account Creation 5 Registration Complete

Enter Your Access Code

If you have a 20-character access code, enter it below. You will find it on the inside of the back cover of your ALEKS User's Guide.

If you do *not* have an access code, you can [purchase an access code online](#). If you have already purchased an access code online, you can find the code on the receipt that was e-mailed to you.

Access Code: - - - [what's this?](#)

[>> Continue](#)

Copyright © 2012 UC Regents and ALEKS Corporation
ALEKS® is a registered trademark of ALEKS Corporation.
[User Agreement](#) - [Privacy Statement](#) Updated: 7/7/10

After completing the purchase, the student enters his personal information and then, checks the box “I have read and agree to the terms of the ALEKS User Agreement”. Finally, the student clicks on the “>> Continue” button.

The screenshot shows the ALEKS registration interface. At the top, the ALEKS logo is displayed. Below it is a progress bar with six steps: 1. Confirm Course Code, 2. Account Status, 3. Course Access, 4. Student Information (highlighted), 5. Account Creation, and 6. Registration Complete. The main heading is "Student Information". A note states "Fields marked with "*" are required." The form contains three sections: "Enter Your Personal Information" with fields for First Name (Chris), Initial, and Last Name (Smith); "Optional - Enter Your E-mail Address" with a field for E-mail address (csmith@aleks.com); and "Review and Accept ALEKS Terms of Service" which includes the ALEKS User Agreement text and a checked checkbox for "I have read and agree to the terms of the ALEKS User Agreement." A red box highlights the ">> Continue" button at the bottom.

Once the ALEKS registration is complete, the student sees a confirmation message that says his ALEKS account has been securely paired with his LMS account. For this example, the student uses Blackboard as his LMS and sees that in the confirmation. The students clicks on the “>> Continue” button.

The screenshot shows the ALEKS registration completion page. The ALEKS logo is at the top left, and the user name "Chris Smith" is at the top right. The progress bar shows six steps: 1. Confirm Course Code, 2. Account Status, 3. Course Access, 4. Student Information, 5. Account Creation, and 6. Registration Complete (highlighted). The heading is "Registration Complete". The message reads: "Thank you. You are now registered to use ALEKS. Your ALEKS account has also been securely paired with your Blackboard account." Below this, there is a graphic showing the Blackboard logo, a padlock icon with the text "securely paired", and the ALEKS logo. A red box highlights the ">> Continue" button at the bottom.

After clicking on the “Continue” button, the student arrives at his Account Home.

The screenshot shows the ALEKS Account Home page for a user named Chris Smith. The page features the ALEKS logo in the top left and the user's name in the top right. A welcome message reads "Welcome back, Chris!" followed by the instruction "Click on the name of your class to continue working on ALEKS." Below this is a section titled "CURRENT CLASS" which contains a card for "Blackboard Demo" with the course name "Basic Math / Math 101c". The card also lists the instructor as "Pham", the last login as "09/20/2012", and the expiration date as "02/03/2013". There is a "Show more" link and an "Actions" dropdown menu. At the bottom of the card is a button that says "Show my other ALEKS classes and more".

Second Option: “Yes, I want to use my existing ALEKS account” Workflow

If the student already has an existing ALEKS account, selecting the “Yes, I want to use my existing ALEKS account” option will allow the student to enter his ALEKS Login Name and password. The student clicks on the “>> Continue” button.

The screenshot shows the ALEKS login page. It features the ALEKS logo in the top left and a "HOME" link in the top right. The page says "Welcome to ALEKS!" and asks "Have you used ALEKS before?". There are two radio button options: "No, I am new to ALEKS" and "Yes, I want to use my existing ALEKS account", with the second option selected. Below the options is a prompt to "Enter your ALEKS login information." followed by input fields for "Your ALEKS Login Name:" and "Password:". There is a link for "I forgot my login information" and a red-bordered button labeled ">> Continue". At the bottom, there is a copyright notice: "Copyright © 2012 UC Regents and ALEKS Corporation. ALEKS® is a registered trademark of ALEKS Corporation. User Agreement - Privacy Statement Updated: 7/7/10".

NOTE: If the student has paired his ALEKS account in the past, he can use the “pair back” link, to pair his account again. The login name used with the old account is displayed in parentheses.

The student clicks on the “>> Continue” button.

ALEKS®

Welcome to ALEKS!

Have you used ALEKS before?

No, I am new to ALEKS

Yes, I want to use my existing ALEKS account

You can **pair back** your old account (JSMITH4576).

Or you can enter your ALEKS login information.

Your ALEKS Login Name:

Password:

[I forgot my login information](#)

>> Continue

The student sees a confirmation message that says his ALEKS account has been securely paired with his LMS account. For this example, the student uses Blackboard as his LMS and sees that in the confirmation. The student clicks on the “>> Continue” button.

Logging into Another Class Through the LMS

From the LMS, the student clicks on the class name he wishes to access. Next, the student will look for a link to launch ALEKS from his LMS. After launching ALEKS, the student will be taken to his Account Home.

In the Account Home, the student will now see the class that he accessed from his LMS under the "CURRENT CLASS" heading.

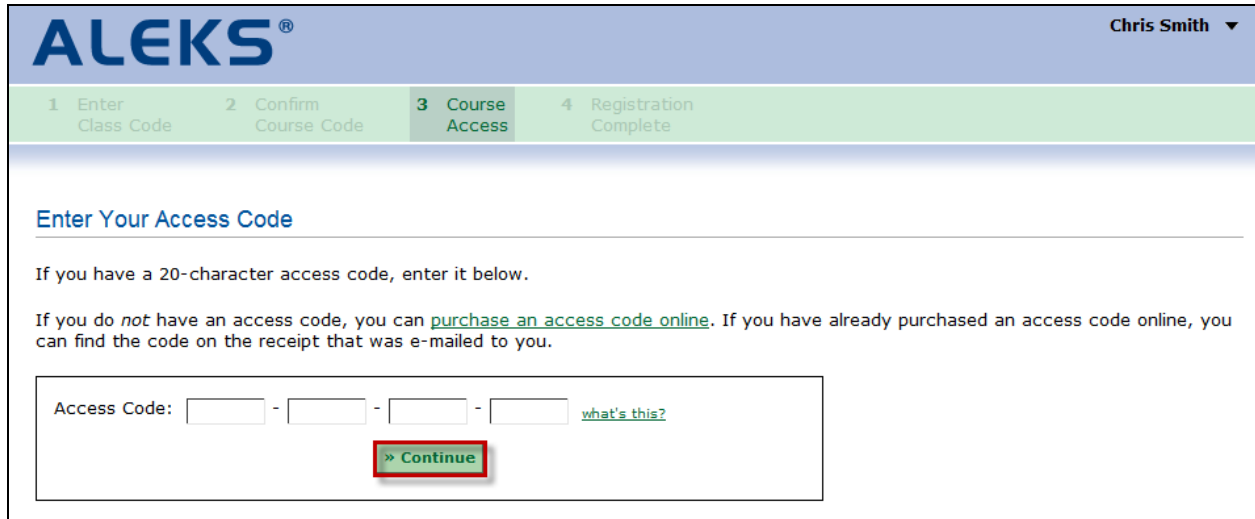

Sign up for a new ALEKS Class

Students can sign up for a new ALEKS class through the following two ways:

- By navigating to another class in their LMS
- Through their Student Account Home (a class code is required in this workflow)

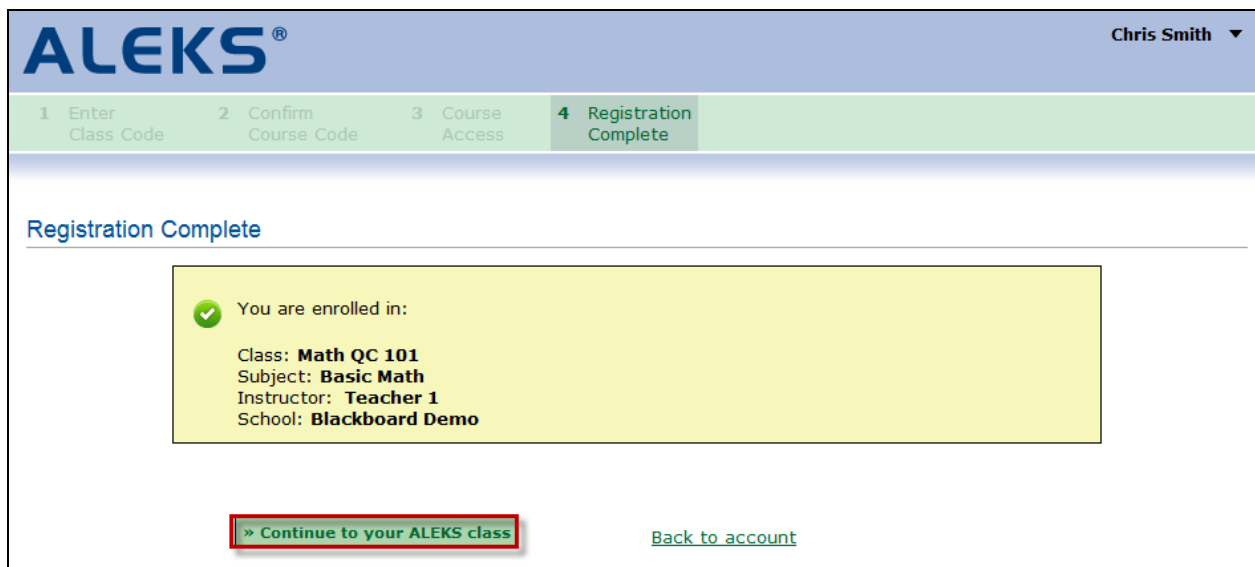

Sign up for a New ALEKS Class by Navigating to Another Class in the LMS

From the LMS, the student clicks on the class name he wishes to access. Next, the student will look for a link to launch ALEKS from his LMS. After launching ALEKS, the student enters a 20-character access code or clicks on the “purchase an access code online” link, if applicable.

The screenshot shows the ALEKS registration interface. At the top, the ALEKS logo is on the left and the user name 'Chris Smith' is on the right. Below the logo is a progress bar with four steps: 1 Enter Class Code, 2 Confirm Course Code, 3 Course Access (highlighted), and 4 Registration Complete. The main heading is 'Enter Your Access Code'. Below this, there is instructional text: 'If you have a 20-character access code, enter it below.' and 'If you do not have an access code, you can [purchase an access code online](#). If you have already purchased an access code online, you can find the code on the receipt that was e-mailed to you.' A form contains four input boxes for the access code, separated by dashes, with a 'what's this?' link. A red-bordered button labeled '>> Continue' is positioned below the form.

The student completes the registration and receives a confirmation for the new ALEKS class. He can click on the “Continue to your ALEKS class” to begin working in his class.

The screenshot shows the ALEKS registration interface at the 'Registration Complete' step. The progress bar at the top now highlights step 4, 'Registration Complete'. The main heading is 'Registration Complete'. Below this, a yellow box contains a green checkmark icon and the text 'You are enrolled in:'. Underneath, the enrollment details are listed: 'Class: **Math QC 101**', 'Subject: **Basic Math**', 'Instructor: **Teacher 1**', and 'School: **Blackboard Demo**'. At the bottom of the page, there is a red-bordered button labeled '>> Continue to your ALEKS class' and a blue link labeled 'Back to account'.

In the Account Home, the student will now see the new ALEKS class he is enrolled in under the “CURRENT CLASS” heading.

The screenshot shows the ALEKS account home interface. At the top left is the ALEKS logo, and at the top right is the user name 'Chris Smith' with a dropdown arrow. Below the header, a welcome message reads 'Welcome back, Chris!' followed by the instruction 'Click on the name of your class to continue working on ALEKS.' A blue box labeled 'CURRENT CLASS' contains a grey bar for 'Blackboard Demo'. Below this, the class name 'Basic Math / Math QC 101' is displayed in green, with a red box around it. To the right of the class name is a blue 'Actions' button with a dropdown arrow. Below the class name, the instructor is listed as 'Teacher 1', the last login is '10/04/2012', and the expiration date is '02/17/2013'. A 'Show more' link is also present. At the bottom of the class box is a green button that says 'Show my other ALEKS classes and more'.

Sign up for a new ALEKS Class Through Student Account Home

After clicking on the “Show my other ALEKS classes and more” button, the student can sign up for a new ALEKS class by clicking on the “Sign up for a new ALEKS class” link.

This screenshot shows the ALEKS account home after clicking the 'Show my other ALEKS classes and more' button. The layout is similar to the previous screenshot, but the current class is 'Pre-Algebra / Math 101c' in green, with a red box around it. The instructor is 'Pham', the last login is '09/19/2012', and the expiration date is '02/01/2013'. A 'Show more' link is present. At the bottom of the class box is a green button that says 'Hide my other ALEKS classes and more'. At the bottom right of the page, a red box highlights a green link that says 'Sign up for a new ALEKS class'.

After clicking on the “Sign up for a new ALEKS class” link, the student enters a 10-character class code and then clicks on the “>> Register” button.
