

Student Account Home: Initial Setup of Account Home

The new Student Account Home groups all ALEKS Student Accounts for a single student under the same umbrella account. What this means in practice is that students can manage and add more ALEKS classes to their umbrella account rather than create separate accounts for each of their ALEKS classes. The Student Account Home lists all of a student's current and previous ALEKS classes, and includes options to sign up for new classes, switch classes, suspend classes, extend access to classes, and remove classes from the Account Home.

This feature is available to students in all Higher Ed Math, Business, Science, and Behavioral Science courses.

Initial Student Sign Up

Students click on the "SIGN UP NOW!" link.

The screenshot shows the ALEKS website home page. At the top, there is a navigation bar with links for LOGIN, ABOUT US, CAREERS, CONTACT US, NEWS, SUPPORT, and DOWNLOADS. Below this is a secondary navigation bar with links for HOME, WHAT IS ALEKS?, COURSE PRODUCTS, HIGHER EDUCATION, K-12, INDEPENDENT USE, and HOMESCHOOL. The main content area features a 'REGISTERED USERS' section with a login form (LOGIN NAME, PASSWORD, LOGIN button) and a 'NEW USER?' section with a 'SIGN UP NOW!' link highlighted in a red box. To the right, there is a 'TO LEARN MORE:' section with 'Take the Tour' and 'Begin Free Trial' buttons, and a 'WHAT'S NEW:' section with links to 'Updated Reporting Page', 'New K-12 Subscription Management System', and 'New Courses Ensure Success on FL EOC Exams'. The bottom of the page is divided into three columns: 'HIGHER EDUCATION' (Instructors - Administrators), 'K-12' (Teachers - Administrators), and 'INDEPENDENT USE' (Parents - Students and Adult Continuing Educ. - Homeschoolers - Tutors). Each column contains a brief description of the service and links to 'Free Trial', 'Success Stories', and 'Implementations'.

Students enter the 10-character class code for their class in the box provided. Students click on the “>> Continue” button.

The screenshot shows the ALEKS homepage with a navigation bar at the top containing the ALEKS logo and a 'HOME' link. Below the navigation bar, there is a section for 'Teachers and instructors' with a link to 'adopt or order' ALEKS. A 'Students: Sign Up' link is also present. The main content area is divided into two columns. The left column is titled 'Using ALEKS with a Class?' and 'K-12 - Higher Education'. It contains text explaining that users should register if they are new students and need to use ALEKS with a class, and that they should have received a 10-character course code from their instructor. Below this text is a form with a 'Course code:' label, a text input field, a hyphen, another text input field, and a 'what's this?' link. A red box highlights the input fields. Below the form is a green '>> Continue' button and a link 'I don't have a course code'. The right column is titled 'Using ALEKS on Your Own?' and lists 'Parents - Students - Homeschoolers - Adult Continuing Educ. - Tutors'. It contains text explaining that users can use ALEKS for themselves or a child without a class, and that they can purchase ALEKS as a personal tutor. Below this text is another green '>> Continue' button.

Students verify the class information and then click on the “>> Continue” button.

The screenshot shows the 'Confirm Enrollment Information' page on the ALEKS website. At the top, there is a navigation bar with the ALEKS logo and a 'HOME' link. Below the navigation bar, there is a progress indicator with five steps: '1 Confirm Course Code', '2 Account Status', '3 Student Information', '4 Account Creation', and '5 Registration Complete'. The '1 Confirm Course Code' step is highlighted in green. Below the progress indicator, there is a section titled 'Confirm Enrollment Information' with a sub-header 'Confirm Enrollment Information'. The text below the sub-header reads: 'You are about to register to use ALEKS in the following course. Please check the course details carefully. If the information is correct, click "Continue." If the information is incorrect, click "modify" to enter another course code.' Below this text is a form with a white background and a black border. The form contains the following information: 'Course: Pre-Algebra (College)', 'Subject: Pre-Algebra', 'Instructor: Mr. Abba', and 'School: Truman College'. There is a '(modify)' link next to the school name. A red box highlights a green '>> Continue' button at the bottom of the form.

Students arrive at the following page and will be asked to make a selection from the following two options:

- **I have never used ALEKS before or I do not have an ALEKS login name.**
 - Selecting this option will take students through the new student registration flow.
- **I have an ALEKS login name.**
 - Selecting this option will allow students to enter an existing ALEKS account.

ALEKS® HOME
